Scholars host Summit on Medical Leadership

Dr. Ed Buckley, Dr. Colleen Grochowski and Dr. Dean Talyor talk prior to the Summit on Medical Leadership.

Each year the Feagin Medical Scholars are placed into teams and each team has a project. This year one of the team projects was to gather those in charge of various leadership initiatives within Duke Medicine for a summit. More than 30 individuals attended. It was a great opportunity to network and share best practices around leadership development in medicine.

The team that organized and hosted the Summit consisted of:
Matthew Kanaan, MD
William Mook, MD
Kirema Garcia-Reyes
Daniel Scott
Milt Zgonis, MD
Hello friends of the Feagin Leadership Program. I hope that all is well in your corner of the world.

It has been an exciting few months since our Winter Newsletter. The Scholars have been very busy. They have gotten married, had babies have had two sessions and they have been working on their team projects. The Scholar's session in April was in Vail. Yes, we took the Scholars to Vail! In fact, I'm going to keep this short to leave space for pictures.

I look forward to seeing you at the 2013 Feagin Leadership Forum on 17 & 18 May.

Tommy Haymanek holds his new little girl, Abigal, born 25 January 2013. Tommy and his family will head to Vail this summer for a Foot and Ankle Fellowship at the Steadman Clinic.

Will Mook and his wife Emily welcome their new baby girl, Teresa Rose Mook born 13 April 2013.

VAIL TRIP
5-7 April 2013

The Scholars had the opportunity to visit Marty Head and John Feagin in Vail in early April. A visit to the Colorado Ski Museum with a lecture from Mr. Sandy Treat, a member of the "Greatest Generation." Mr. Treat shared stories about his time with the 10th Mountain Division during WWII. He trained at Camp Hale (Vail) prior to be sent to Italy.

The Scholars also had sessions on business etiquette, difficult conversations as well as a panel discussion with John Horan-Cates and Art Kelton. The team working on the documentary had the opportunity to interview people from the Vail area for their project. The other teams also worked on their projects and the presentations they will give at the Forum in May.

Marty and John hosted us for a reception at their lovely home. Oh yes, there was some skiing!
At the Denver Airport waiting for the flight home the Scholars brief Dr. Taylor and BG(Retired) LeBoeuf on their project. No rest!
